The chart displays the percentage of occupied (red) and empty (grey) rooms over a 20-year period. The Y-axis represents the percentage from 0% to 100% in 10% increments. The X-axis shows years from 2000/01 to 2019/20, with each year divided into four seasons: Summer, Fall, Winter, and Spring. The data shows a general upward trend in occupancy, with a notable peak in 2007/08 where occupancy reached 100% for all seasons. Following this peak, occupancy levels fluctuated, with a significant drop in 2008/09 (around 50% occupancy) and another dip in 2010/11 (around 25% occupancy in Spring). By 2019/20, occupancy levels were generally high, with Summer and Fall reaching 100% and Winter and Spring around 75%.
