The chart displays the percentage of occupied (red) and empty (grey) seats in the Grand Canyon Railway's 100-car train from 2000 to 2020. The Y-axis represents the percentage from 0% to 100%. The X-axis shows the years and seasons. The data indicates that occupancy was generally high, often reaching 50% or more, with a notable peak in 2007/08 where occupancy reached nearly 100%. The chart also shows periods of lower occupancy, particularly in the early 2000s and towards the end of the period.
